DEPARTMENT OF ENGLISH

We wish to express our heartfelt gratification to our Hon'ble Principal sir and management for provided their consent and support to organize the Communication Skills Class for First year UG students on **23-03-2022** under the title of **"THE IMPORTANCE OF COMMUNICATION SKILLS IN THE WORKPLACE"** nearly **650** students from various discipline.

Members of the department have conducted the class for all the first years students of Sengunthar Arts & Science College.

On that day, it also helps to make confidents and face the competitive world. Meanwhile, it improves our presence of minds whenever we express our views, listens to what others are taking about. To achieve their dreams in anything they want to do, students need brain power with the short memory to become successful in life.

Communication is process by which information is exchanged between individuals through a common system of symbols, signs or behaviour. Communication plays a crucial role in altering individual's attitudes. Communication promotes motivation. Communication is a source of information to the organizational members for decision -making process. Communication also helps in socializing. Communication also assists in controlling process. Effective communication is a part and parcel of any successful organization.
