Gender equality is also a precondition for advancing development and reducing poverty: Empowered women contribute to the health and productivity of whole families and communities, and they improve prospects for the next generation. Empowering women is to realizing human rights, reducing poverty, promoting development and addressing the world’s most urgent challenges, gender equality remains an unfulfilled promise. The girl students were interacted well and discussed about their daily life problems faced by them, and got guidelines from our Resource person to overcome and face their problems in challenging manner.
